This is the equipment we normally use to produce the fabric as previously described.
The conversion to brushing would be complete in-time of executing order:

Process Description	Brand Equipment
Circular Knitting	Pai Lung
Dyeing	Brazzoli (Inno Flow)
Foulard	Fab-Con / Zimmer
Napping and related	Tube-Tex
Dryer	Fab-Con
Finishing	Fab-Con
Printing	Zimmer
Cutting	Bierrebi

Based on the described above, Elcatex is offering a product that will work for Garan Manufacturing Corp. since we are within the requested specifications.

* Gauge 21 is currently unavailable but we certify that will be ready once we receive confirmation for our response letter and formal Purchase Order.

We are capable of producing the amount of 272, 800 kilograms (600,000 pounds) per season Jan-Jun. In addition to this information, we can confirm that we have produced around 111,400 kilograms (around 245,000 pounds) of a similar fabric in the last 24 months. We can develop the fabric and submit samples in 4 weeks (knitting forward). The costing process can be ready in one week.

Elcatex did not receive the previous communications for this availability request so we could not answer before. IT people tracked the communications sent to the e-mail address: chuy@elcatex.com but could not find any e-mail related. We contacted to Honduras Textile Association to include the names of more people from Elcatex on their contact list, so that we can make sure to receive the e-mails since there is no way for us to control or assure the receipt of all the e-mails sent to only one e-mail address.
