**Re: Petition Regarding the Commercial Availability of Certain
Cotton/Nylon/Spandex Raschel Knit Open Work Crepe Fabric**

Dear Chairman:

On behalf of our client, Hansae Co. Ltd. ("Hansae") we hereby submit this request for a finding of commercial non-availability pursuant to the provisions of Section 203(o)(4) of the Dominican Republic-Central America-United States Free Trade Agreement ("the Agreement") Implementation Act and CITA Final Procedures for implementing Section 203(o)(4) contained in CITA's Federal Register notices of March 15, 2007 and the Modifications to Procedures of September 12, 2008 (hereinafter "Procedures") with respect to certain fabric, described in the Annex attached to this request, to be used in the manufacture of apparel in a CAFTA-DR country. We respectfully request that the subject fabric described in the Annex be added to the list in Annex 3.25 of the Agreement in unrestricted quantity because the fabrics are not available in commercial quantities in a timely manner from a supplier in the CAFTA-DR countries.

(1) Detailed Product Information

The Annex provides in detail: fiber content, construction, yarn size, and finishing processes; and the classification of the product under the HTSUS. The fabric in question is cotton/nylon/spandex open knit work crepe fabric classifiable under HTSUS subheading 6005.22.00 (piece dyed) and 6005.24.00 (printed).

The product specifications, including, fiber content, construction, yarn size, and finishing processes and performance characteristics are reasonable and stated in terms of accepted terminology and standards.

We note that the subject fabric is substantially similar in construction to existing fabrics previously determined by CITA to be unavailable in commercial quantities in a timely manner from a supplier in the CAFTA-DR countries and are contained in Annex 3.25.¹

These standards and specifications were explained to all potential suppliers.

Timing was expressed as the annual quantity being supplied during a seven month period.

(2) Quantity

Hansae requires [*****] pounds ([*****] yards) each calendar year on the following schedule: [*****] yards by August 31; [*****] yards by November 15; and [*****] yards by February 15.

(3) Due Diligence

(i) Generally

The following is a summary of Hansae's contacts and due diligence that demonstrates its legitimate intent, and good faith and reasonable efforts to obtain the subject fabrics from CAFTA-DR suppliers. We note that despite our best efforts to provide contact names, titles and addresses for each company, in some circumstances we were unable to find or verify some of this information as the contacts were made entirely via email or facsimile based on the best information available. *See note 2, infra.*

Hansae directly contacted all potential suppliers to locate sources for the subject fabrics, as well as the industry associations in all CAFTA-DR countries. No company indicated that they could supply the subject fabric.

Details of the salient points of Hansae's communications with the various companies and trade associations in the region with regard to whether they or their members could supply the subject fabric within the specifications described in the Annex to this submission are described below.² Copies of the contacts are provided in the attachment of the confidential version of this submission.

¹ See CITA Reference Numbers: 101.2008.12.01.Fabric.SoriniSametforHansoll; 100.2008.12.01.Fabric.SoriniSametforHansoll; and 83.2008.08.08.Fabric.SoriniSametforHansoll.

² Titles of the individuals contacted are listed in all cases where they are known. Contact information for many of the companies was provided by the relevant industry association. However, none of the associations provided titles with that contact information. Hansae contacted the individuals recommended by the applicable associations and/or the contact person with whom they typically correspond with for business purposes.

INDUSTRY ASSOCIATIONS

Association: Adozona
Contact(s): José M. Torres, Executive Director (adozona@codetel.net.do)
Address: AV. Sarasota #20, 4to. Piso,
Torre Empresarial AIRD,
Apartado Postal 3184

08/10/2009: Second request. {BG2}
No responses received.

(ii) Identification of CAFTA-DR suppliers

As part of its due diligence, Hansae directly contacted the trade associations representing the CAFTA-DR countries' textile industries. They also contacted numerous individual companies throughout the CAFTA-DR region that based upon inquiries and experience could conceivably produce the fabrics in question. To the best of its knowledge and ability, Hansae identified and contacted any regional supplier that might have the capability to produce the subject fabric. As the foregoing explains, these efforts to identify CAFTA-DR suppliers were reasonable in light of the product at issue.

(iii) Use of Third Parties and Business-to-Business Contact

All communications were handled directly between Hansae and the individual companies and associations. Further, all contacts were made at the level appropriate to communicate information on the fabrics needed, the specifications and standards, and the reason for those standards. Hansae was represented at the highest level of the company.

(iv) Description of the Subject Product

The Annex was provided to all potential suppliers and represents reasonable product specifications, including fiber content, yarn size and finishing processes expressed in accepted terminology and standards. The Annex describes with specificity the fabric needed by Hansae.

(v) *Provision of Samples*

In the course of the business dialogue, Hansae provided samples to two potential suppliers. None provided a counter sample.

(vi) *Substitutability of Products*

No companies suggested any fabrics that were substitutable for the subject fabric.

(4) Substitutable Products

It is absolutely critical that the fabric in question meet the stated performance criteria. A fabric that cannot match the stated requirements is simply unusable to Hansae and its customer and therefore is not substitutable.

Hansae is unaware of any supplier that produces a substitutable product in the CAFTA-DR countries, and did not receive an assertion that a conforming fabric could be produced that was substitutable for the fabrics requested.

Thank you for your consideration of this request. If you have any questions or require further information, please contact me at 202-216-9307 or mtallo@strtrade.com.

Respectfully submitted,
SANDLER, TRAVIS & ROSENBERG, P.A.
