Apopa, March 24, 2014.

TO WHOM IT MAY CONCERN:

We hereby certify that we have been developing, since 2011, a cotton yarn suitable for cut pile velour fabrics for our customer **Pettenati Centro América**. This specific yarn is produced with longer fibers and with a lower twist.

Since 2012, we have been supplying Pettenati Centro América with our CAFTA qualifying yarns. It is our knowledge that Pettenati Centro América had to rely previously on imported non-CAFTA yarns to produce fabric for garment manufacturers in the region that were exporting to the USA using TPL's from Nicaragua.

We do have the capacity and availability to supply Pettenati Centro América any additional yarns, even in different yarn requirements, either in quantity or count, to keep this kind of fabric and garments under production within the CAFTA region.
